### **Development Log**

#### **January/February/March 2006**

The Development Log was started to keep an active record of large-scale development projects occurring in the City of Cambridge. The Log, updated on a quarterly basis, is distributed to City departments to keep them posted of development progress from permitting and construction to completion. Criteria for the Log include:

- ◆ Commercial projects totaling over 50,000 square feet and any which have a significant impact on the neighborhood in which it is located.
- ◆ Residential projects of eight or more units that are new construction or rehab/renovation projects that alter the existing use either by adding to or subtracting from the existing number of units or square footage.
- ◆ All municipal projects in which a cross section of City departments may have an interest and all which are considered significant.

Projects meeting the criteria will be categorized by status, which include:

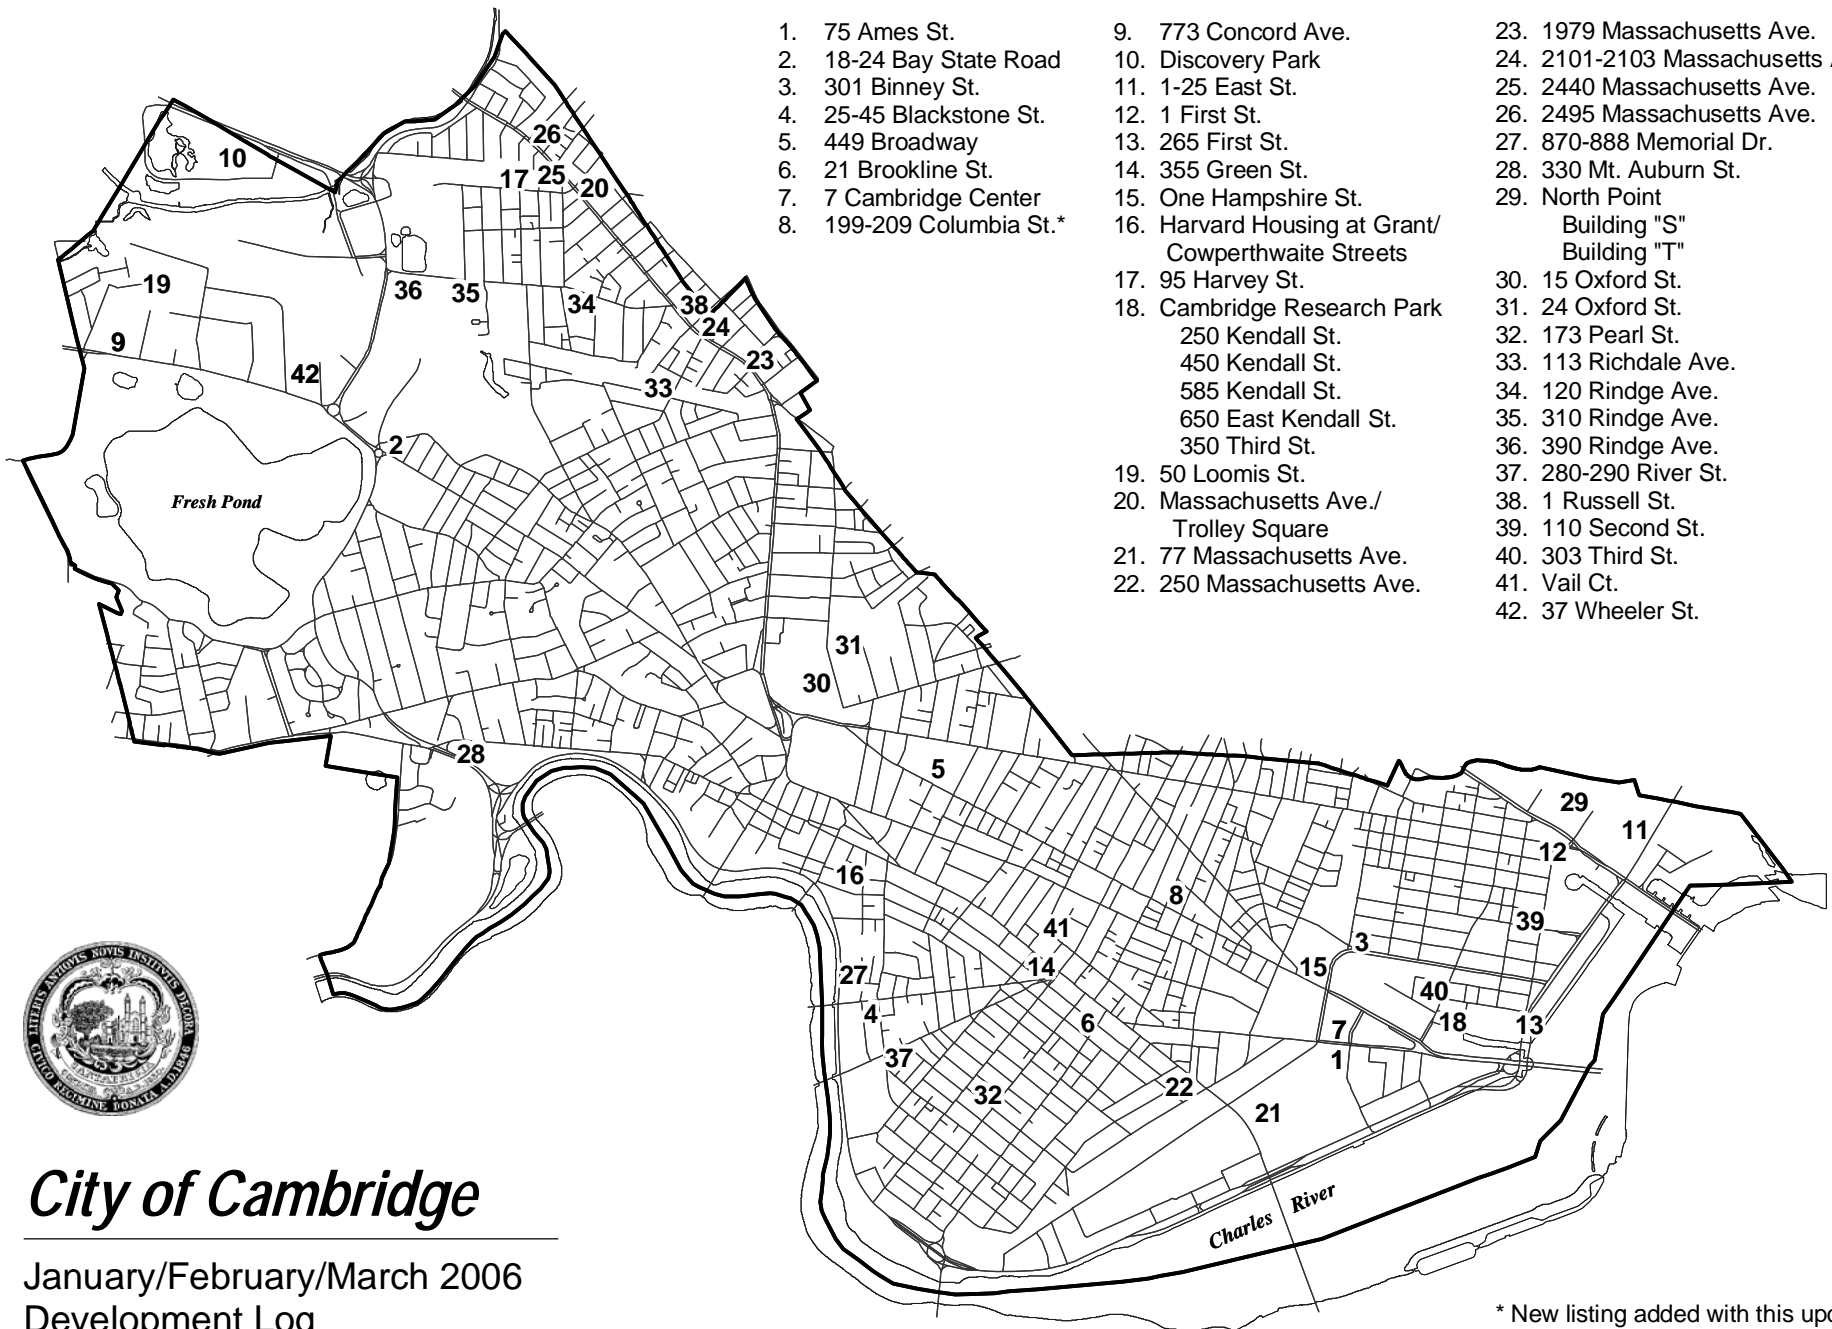

- **Permitting** = project under review by Community Development, Planning Board or Board of Zoning Appeals.
- **Permits Granted** = development received Special Permit or BZA approval; may not have Building Permit.
- **In Construction** = development received Building Permit.
- **Complete** = project received Certificate of Occupancy (CO) or Temporary CO.
